Finite Wines

Uniqueness, an expression of the terroir, finesse and elegance describe this wine that has undergone static ageing and is now showing its complete potential. Finite Wines are limited and exclusive releases of unique wines found in the in hidden corners of the winery.

VIÑA DULCE NOMBRE

Made from what were possibly the last Palomino Fino grapes vinified as sweet wine in the La Canariera vineyard presses that have now been brought back into service at the heart of the Carrascal Pago.

The Palomino Fino is usually dried vinified and used for the classic dry styles of Sherry, so this wine is a true rarity, a treasure to be discovered. One of the only very few sweet Palomino Fino wines on the market.

This wine is a pure elixir. Ebony coloured with touches of copper, it is sweet and intense on the nose, displaying a thousand shades of fig and molasses together with hints of hardwood and exotic spices.

Residual sugars

225g/l.

Less than 2000 bottles available of this limited wine.

TASTING NOTES

This is a wine that is both big and light at the same time, with an elegant sweetness that makes it uniquely delicious.

The significant sugar level and long ageing provide a seducing and velvety yet complex palate, where the nuttiness of the Palomino Fino grape is also showing.
