

Inspired by Scottish folklore, the Legend of Wolfcraig tells of Norse invaders who crept through the cover of a dark wintery night, intent on ambushing a Celtic garrison. The eerie silence was broken by one stumbling Norseman that trod on the paw of a sleeping wolf-cub, who awoke startled, and began to howl. The raucous howling of the wolfpack filled the night sky and alerted the garrison to the threat. A bloody battle ensued, which saw the Celts emerge triumphant. Since then, the battlefield has been known as "Wolfcraig", and the legend of the wolf lives on -
