

DERTHONA

COLLI TORTONESI doc TIMORASSO

GRAPE VARIETY: 100% Timorasso

HARVEST: September

COMMUNE: Montemarzino (Zebedassi hamlet)

MACERATION: no

AGEING: stainless steel

PERMANENCE ON YEASTS: about 10 months

We had in mind a version of Derthona played on tension and aromaticity. We wanted saline components at length. We found them thanks to the territory of the hamlet of Zebedassi (in Montemarzino), which with its great variety of soils gives white wines of great structure, depth but extreme pleasantness.
